

MUNCKHOF

Weed Sprayers

Munckhof weed sprayers are built ready for your herbicide application, with a high quality 30Lt per minute high pressure diaphragm pump, PTO drive and piggy back configuration.

Booms can be mounted on the left, right or both sides of the sprayer. These booms are built with spring loaded break-aways that will return into place after small contacts in the feild.

Munckhof can also customize over-the-row spray booms for your machine.

(200L Fiberglass)
